- 2.2 **S**tandard(Silver)
- 2.3 **P**remium(Platinum)
- 2.4 **C**ustomized(Diamond)

2.1 Essential(Basic)

Essential interior design focuses on creating a functional and aesthetically pleasing space. It involves careful planning, selecting the right furniture, colors, and textures, and maximizing the use of space.

2.2 Standard(Silver)

In standard interior design, we find a harmonious fusion of luxurious materials, tasteful color schemes, and exquisite craftsmanship. The use of fine fabrics, glass, stone, acrylic, laminate, metal work etc. for touch of elegance appearance. Attention to detail, a sense of balance are key in creating a space that exudes sophistication and refinement.

2.3 Premium(Platinum)

In premium interior design, we find exquisite material like veneer, Hardware, marble, onyx, and high-quality woods, custom-made furniture, unique lighting fixtures. The goal is to create a space that is both visually stunning and incredibly comfortable, with a strong emphasis on craftsmanship and attention to detail.

2.4 Customized(Diamond)

A customized interior design offers to your specific preferences and needs. They work closely with you to understand your style and requirements to create a unique and personalized space. It can include a variety of customized option such as in wood, metal, glass, fabric, and more. It's best to consult with a customized interior designer to determine the most suitable materials for your project.
